

Spectralink Product Discontinuation Bulletin

Discontinuation of PIVOT PTT and SAFE Feature Licenses

PDB #	PDB 2016-527
Price List Section	Wi-Fi
Affected Region	Global
Overview	Push-To-Talk (PTT) and SAFE Licenses Discontinuation
Product Discontinuation Details	Beginning with PIVOT release 1.8 which is KitKat based and PIVOT release 2.1 which is Lollipop based, PTT and SAFE features no longer require the purchase of a license to utilize these functions.
Replacement Products	No replacement needed. These features are now included in the PIVOT software (starting with PIVOT releases 1.8 and 2.1).
Recommended Partner Actions	Customers who are interested in making use of the PTT or SAFE Features with PIVOT devices should be encouraged to move to version 2.1 or later for the 8744 and to version 1.8 or later for the 8741, 8742, 8753.
FAQs	<p>Q1: What is the Customer Discontinuation date?</p> <p>In order to allow sufficient time for customer to plan and implement a firmware upgrade the license features part numbers will remain active until January 1, 2017.</p> <p>Q1: What is the last order Date?</p> <p>All orders for the impacted licensed features must be received by December 1, 2016.</p> <p>Q3: What is the Service Discontinue Date?</p> <p>PTT and SAFE features will continue to be part of the PIVOT offering. The purchase of licenses is no longer required beginning with PIVOT release 1.8 and release 2.1</p> <p>Q4: Whom should I contact for more details?</p> <p>Contact your Spectralink Sales Representative</p>
